DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: Applicant argues that prior art does not teach the second stop circuitry recited in claim 1 that generates the second stop signal in response to a first output current for the first converter output voltage supplied to the common load, a second output current from the second converter output voltage supplied to the common load, and the first ON-time pulse.

Examiner agrees as the prior art fails to teach the second output current from the said second converter output voltage supplied to said common load, and said first ON-time pulse.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Brown whose telephone number is (571)272-5932. The examiner can normally be reached on Monday-Friday from 7:00am to 3:30pm(EST).
